Dear Sirs,

Concern: Values Reduction

We are increasingly noticing recurring cases of values reduction included in the covering documents of goods from your respective geographical areas.

Regarding the occurrence of such values in the revenue protection of the public treasury and organisations in the clearance circuit, I urge you to take extreme care of data reliability included in the FERI, AD, FERE waiver certificates as well as in their attached documents (Commercial invoice, exportation declaration, etc.).

The non-respect of these provisions is considered as a serious mistake in the execution of the mandate that OGEFREM has given to you, with all consequences resulting therefrom.

Yours faithfully,

Patient SAYIBA TAMBWE
